

K-Love is the only radio station I listen to. It provides the spiritual nourishment I crave in my daily routine and I need to maintain my relationship with the Lord. K-Love serves my local community and is in the public interest as it promotes wholesome values in concert with the ethical and moral standards of this nation. To allow new LPFM stations to take priority over an existing national station that exists to benefit those who support it financially would be a travesty and an outrage.
